# OUR STORY

Hussein Abukhdeir, inspired by his father's service in the US Army during World War 2, proudly served in the US Air Force for 28 years. In 1998, he was transferred to Colorado Springs from California, which was already a long way from his family's homeland in Jerusalem. He retired in 2011 at Schriever Air Force Base. The family's need for genuine Middle Eastern cuisine led them on a journey to find an affordable and truly authentic dining experience in the area. Since there were none to be found, Hussein, with his wife, and children began plans to open their own restaurant that offered delicious, yet affordable, authentic Middle Eastern cuisine. Finally, after 9 years of preparation, this dream became a reality in 2007 for their Palestinian American military family.
